**NEW JERSEY STATE BOARD
OF MEDICAL EXAMINERS**

STATE OF NEW JERSEY

DEPARTMENT OF LAW & PUBLIC SAFETY
DIVISION OF CONSUMER AFFAIRS
STATE BOARD OF MEDICAL EXAMINERS

In the Matter of:

Bryan P. Chambers, M.D.

ORDER OF
UNRESTRICTED
LICENSURE

This matter was reopened before the New Jersey State Board of Medical Examiners (the "Board") upon receipt of a petition from respondent Bryan P. Chambers, M.D., for removal of certain conditions and restrictions placed upon him most recently within a modified Consent Order of Restricted Licensure filed on March 25, 2002. Respondent appeared before a Committee of the Board on June 25, 2003, and then testified in support of his petition. Respondent was accompanied by Louis E. Baxter, Sr., M.D., FASAM, the Executive Medical Director of the Physicians' Health Program of the Medical Society of New Jersey (the "PHP"), who also offered testimony concerning respondent's participation with the PHP.

Evidence available to the Board supports a finding that respondent has been compliant with all conditions imposed upon him within the series of consent orders that have been entered by the Board dating back to the May 24, 1999 Consent Order which granted respondent a restricted license to practice (following his voluntary agreement to surrender licensure on January 23, 1997, after respondent had relapsed into his prior abuse of Fentanyl). Respondent testified that he has maintained absolute abstinence

from all mood altering chemicals (other than those prescribed to him by a treating physician) for a period of six years, and has **complied** with all requirements imposed upon him by the PHP and within the Board's orders. The PHP reports **that** Dr. Chambers has six years of documented recovery, and fully supported his petition for removal of conditions upon his **license**.

The Board being satisfied that good cause presently exists to remove **the** conditions and restrictions upon respondent's **license** imposed by operation of the Consent Order filed on April 23, 2002, and being satisfied that the entry of the within Order is in the public interest,

IT IS on this 23, day of Sept., 2003

ORDERED;

The restrictions and conditions set forth within the Board's Order of April 23, 2002 upon the license of respondent Bryan Chambers, M.D., are hereby discontinued. Respondent is presently deemed to hold unrestricted licensure.

NEW JERSEY STATE
BOARD OF MEDICAL EXAMINERS
